

HAND & SURFACE SANITIZER

WITH MOISTURIZERS

BACKGROUND

Terra Blanca Winery and Estate Vineyard has been producing alcohol-based Hand and Surface Sanitizer at the request of local hospitals and has supplied Health Departments, Hospitals, Health Care Providers, Long Term Care Providers, First Responders and critical food processing plants with a quality product produced in a certified production facility in Washington State made from all United States produced ingredients. Our goal all along has been help meet the extreme shortage Hand and Surface Sanitizer, providing a high quality FDA approved product, complete with an SDS for the product at a very reasonable cost. The production of this product is also supporting jobs in small businesses while meeting the communities needs during this COVID-19 crisis.

FORMULA

Made in accordance with World Health Organization approved Formulations for Hand and Surface Sanitizer. Ethanol Alcohol used is specifically approved by FDA for use in Hand and Surface Sanitizer.

Active Ingredient: 80% Ethanol Alcohol (Specifically FDA Approved for Hand Sanitizer)

Also Contains: Water, tert-Butyl Alcohol, Denatonium Benzoate, Propylene Glycol, Glycerin
